# ABOUT

MNLS consists of eight wholly owned subsidiary companies that together present a progressive logistics management and consultation service to companies in Bangladesh. Since its start 8 years ago, MNLS has worked in strong and effective partnerships with its clientele, bringing forward a comprehensive package of services.

From Inland Transport, Project Logistics, Heavy Lift, Dredging, Construction, and Logistic Solution Services, MNLS has every resource to guarantee the success of its client companies.

MNLS works closely with customers to understand their business and engineer solutions that improves performance. Our team is dedicated to quality and efficiency, in anticipating and serving your needs, so that you can focus on your business. Through strong networks across Bangladesh and the globe, and a wide range of logistic capabilities, MNLS can meet your requirements and cut down your costs. Regardless of the scope or complexity of the project, MNLS has the resources and expertise to consistently deliver high quality work with utmost professionalism.

Since its conception, MNLS has shown dedication to meeting international standards in all its works. Our staff benefit from regular training sessions on all areas, such as marketing, tax, human resource management, awareness on quality policy and objectives, and health, safety and the environment.

We prioritize the health and safety of our clients and employees and the protection of the environment. In this regard, we comply dedicatedly with the Health, Environment and Safety (HES) policy which is firmly in place throughout our organization.

All our subsidiaries have excellent records and have built strong long-term relationships with our customers. Each customer benefits from our personalized approach, which not only cuts costs and saves time, but also outclasses other companies through the superior quality of service.

**Lion Mainuddin MJF**  
Managing Director

MNLS consists of eight wholly owned subsidiary companies that together present a progressive logistics management and consultation service to companies in Bangladesh.
