## WHO WE ARE

Northwestern Textile Group is a leading ready-made garment buying agent and exporter. We are committed to easing the apparel sourcing process with our technical expertise and world-class service. We outsource raw materials worldwide for our value retailers for an unbeatable price.

To minimize the burden of the complex manufacturing process, Engineer Shafiqul Islam (Textile) and Engineer Ruhul Amin (Electrical) came together with a vision in mind to make the entire manufacturing process more efficient and cost-effective. The idea is to minimize the overall manufacturing process time and material cost by bringing a series of garments manufacturers (member factories) under one umbrella. Together our manufacturers are highly capable of producing a garment from scratch to the final product within or less than an allowable time. Under the supervision of experienced management, our highly trained professionals execute all necessary steps carefully to ensure the quality of each piece of the products to meet the exact need of our valuable customers.

The company has two offices located in **Pittsburgh, Pennsylvania**( Finance and regional distribution), and **Dhaka, Bangladesh**(Central Manufacturing hub). Our prospective offices are in **Shanghai, China** ( for trimming and accessories sourcing), **Lima, Peru** (South American Sales office), **Toronto, Canada** (Regional sales office), and **London, UK**(European Sales and distribution Office).

- Quick financial support

# OUR PHILOSOPHY

01

At the core of the IAG there resides the understanding that we value excellence above all else and that we strive daily to make it a habit. From this nothing will deter us.

02

We know that businesses are not 'built'. Rather, we believe that our time is best spent building people. Ultimately, it is those people who will build the business

03

Finally, all of our people in positions of leadership at the IAG are owners of the business. This culture of ownership gives our people higher purpose, and purpose creates commitment. Being owners fosters that commitment and in turn, creates a resolve to be the best.
